

MAYUR MALI

Java Full Stack Developer | Database Developer | Frontend Developer

Email | LinkedIn | GitHub | Portfolio | 8080656265

CAREER OBJECTIVE

Motivated B.Tech CSE graduate (2025) with hands on experience with Core Java, OOPs, Spring Boot, REST APIs, PostgreSQL/MySQL, and Git. Skilled in developing Java applications, solving technical problems, and working in team environments. Eager to learn new technologies and contribute to software development projects.

TECHNICAL SKILLS

Programming Languages: Java (java 8, Exception handling, Multithreading, Data Structure and Algorithms), JavaScript (ES6)
Frameworks: Collection Framework, Spring core, Spring Boot, Spring MVC, Spring Data JPA, Hibernate (JPA), REST APIs, Servlet, JSP
Databases: SQL, PL-SQL, PostgreSQL, MySQL, JDBC
Version Control: Git (clone, commit, push, pull), GitHub — collaborative team workflows
Frontend: React JS, JavaScript (ES6), HTML5, CSS3, Tailwind CSS, Bootstrap
IDEs & Tools: Eclipse, VS Code, Spring Tool Suite (STS), Postman (API Testing), Maven
Testing & Quality: Manual Testing, API Testing, Debugging, Bug Fixing, Code Reviews, Troubleshooting
Soft Skills: Problem-Solving, Clean Code Practices, Teamwork, Communication, Proactive Learning, Adaptability

INTERNSHIP EXPERIENCE

Java Full Stack Developer Intern | TestYantra Software Solutions Pvt. Ltd.

- Assisted in developing and maintaining Java-based applications using Core Java and Spring Boot, writing clean, efficient, and well-documented code aligned with software development best practices.
- Applied OOP concepts — Inheritance, Polymorphism, Encapsulation, and Abstraction — to build modular, reusable, and maintainable components, reducing code duplication across modules.
- Performed CRUD operations and wrote optimized SQL queries in MySQL and PostgreSQL, including JOINS and subqueries, improving data retrieval efficiency and backend application performance.
- Developed and tested RESTful backend services using Spring Boot, collaborating with frontend (React JS) to ensure seamless API integration and maintaining technical documentation.
- Used Git for version control — including clone, commit, push, pull, and branching — to collaborate with the team and maintain code integrity across sprints.
- Demonstrated willingness to learn and adapt to new tools and technologies as required, attending technical workshops and applying new learnings to project tasks promptly.

PROJECTS

College Event Management System | Spring Boot · React JS · MySQL · REST APIs · Git

- Designed and developed RESTful backend services using Spring Boot with OOP-driven modular architecture; implemented full CRUD operations (Create, Read, Update, Delete) for event and user management with MySQL database.
- Applied MVC design pattern with clean separation of concerns; implemented robust exception handling and input validation for secure, well-documented, and reliable data processing.
- Used Git (clone, commit, push, pull) for version control and team collaboration; deployed backend on Render and frontend on Vercel, demonstrating end-to-end development lifecycle ownership.

Real Estate Management System | Spring Boot · Hibernate · MySQL · REST APIs · Git

- Built a scalable Java-based backend using Spring Boot and Hibernate (JPA); developed RESTful APIs for property listing, user management, and transactional data integrity using MySQL with optimized SQL queries.
- Implemented @Transactional service layer with entity relationships and complex SQL queries (JOINS, subqueries), ensuring database consistency and resolving technical issues related to data integrity.
- Managed complete development lifecycle from requirement analysis to deployment applying Agile practices, Git version control (commit, push, pull, branching), and thorough technical documentation standards.

EDUCATION

B.Tech — Computer Science & Engineering | Godavari College of Engineering, Jalgaon | 2021 – 2025 | 68%

HSC (12th) | Pratap College, Amalner | 2021 | 82%

SSC (10th) | Sane Guruji Nutan Madhyamik Vidyalaya, Amalner | 2019 | 68%

ACHIEVEMENTS & LEADERSHIP

- Captain, College Kho-Kho Team — Led team to Zonal-level championship, demonstrating strong teamwork, communication, and problem-solving skills under competitive pressure.
- Head of Discipline, Computer Engineering Student Association (CESA) — Coordinated technical and cultural events, strengthening cross-functional collaboration and team management capabilities.
- 1st Prize — Cultural Competition at Annual College Day, reflecting strong communication and public engagement skills.
- Hackathon Participant — Participated in college-level hackathons, collaborating with team members to develop innovative software solutions within tight deadlines, enhancing problem-solving, teamwork, and rapid development skills.
